v.1

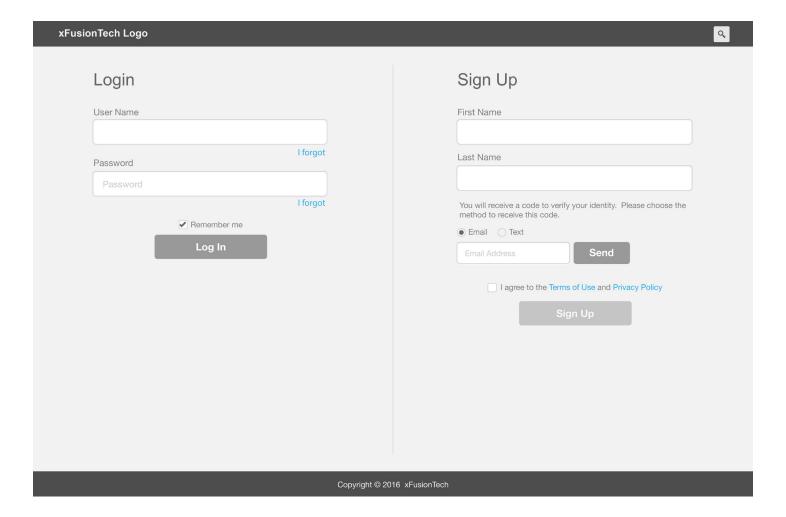

Login/Sign Up Parent Profile Child(ren) Profile Facilities Locator Manage Inbox

Screen: Login & Sign Up

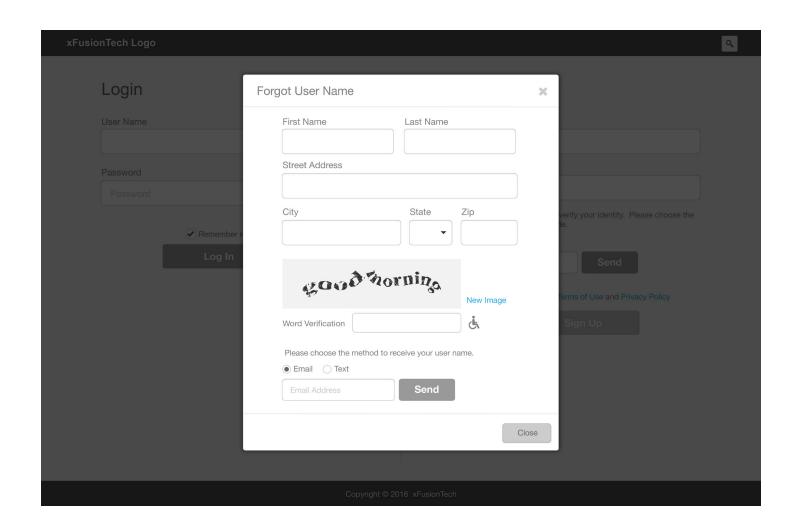

The landing page contains 2 panels. User can sign up (register) a new account if they haven't done yet.

Click on "I forgot" under User Name will invoke a modal box to enter required information. See page 3.

Click on "I forgot" under Password will invoke a modal box to enter required information. See page 4.

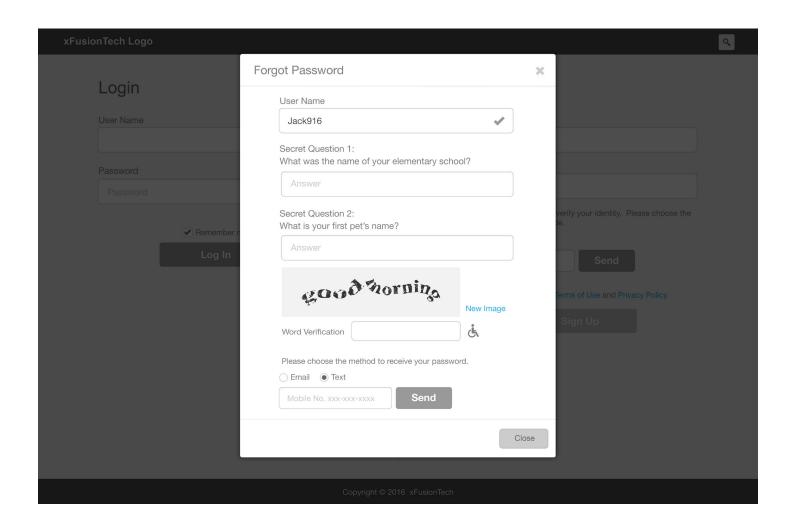

Screen: Forgot User Name

Screen: Forgot Password

After verifying user's name, 2 secret questions will be sliding down each time for further verification.

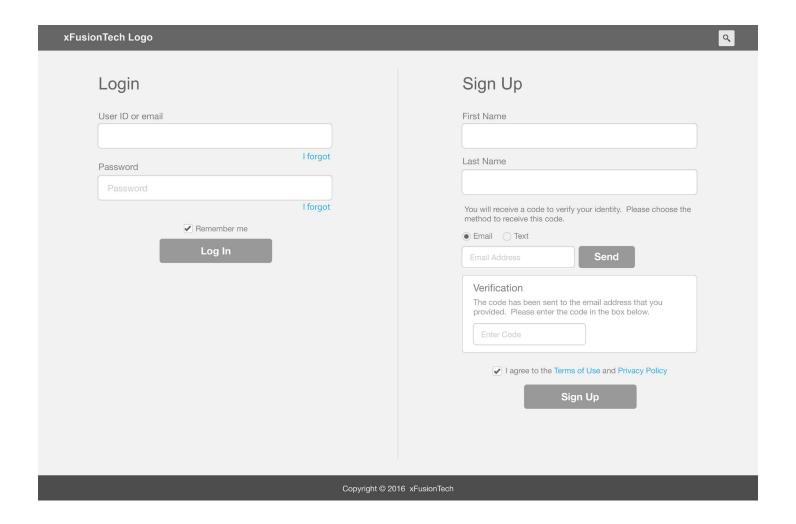

Screen: Login & Sign Up

To sign up for a new account, user can choose either Email or Text method to receive "Code".

After clicking on "Send" button, "Verification" box is sliding down for entering received code from email or text.

Click on "Sign Up" button to continue the registration process. See page 6.

Screen: Parent Profile - Continue signing up

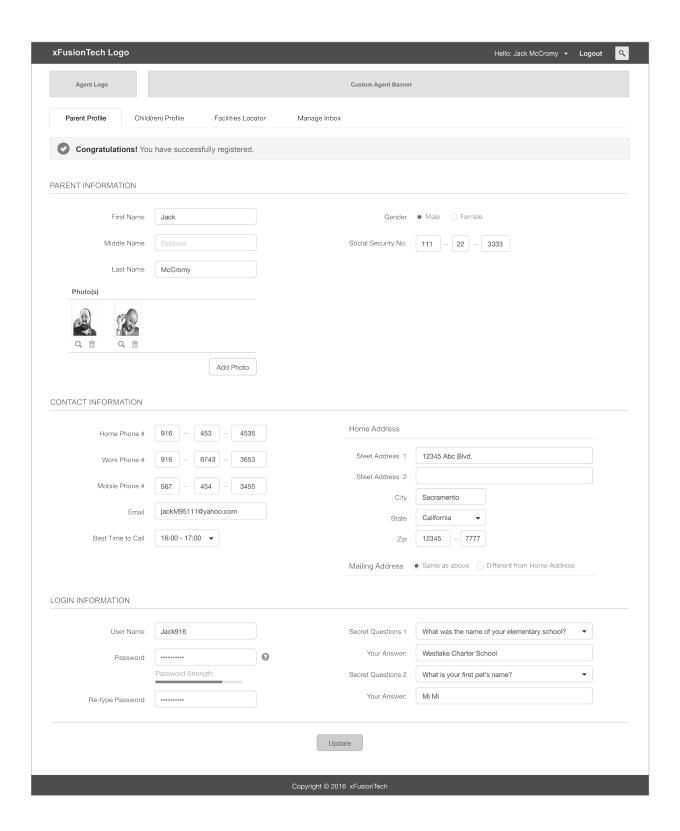

After signing up a new account, user is required to fill up more detail information in order to complete the registration process. Top warning banner shows the warning message.

Note: All top tabs are NOT available until the completion of registration.

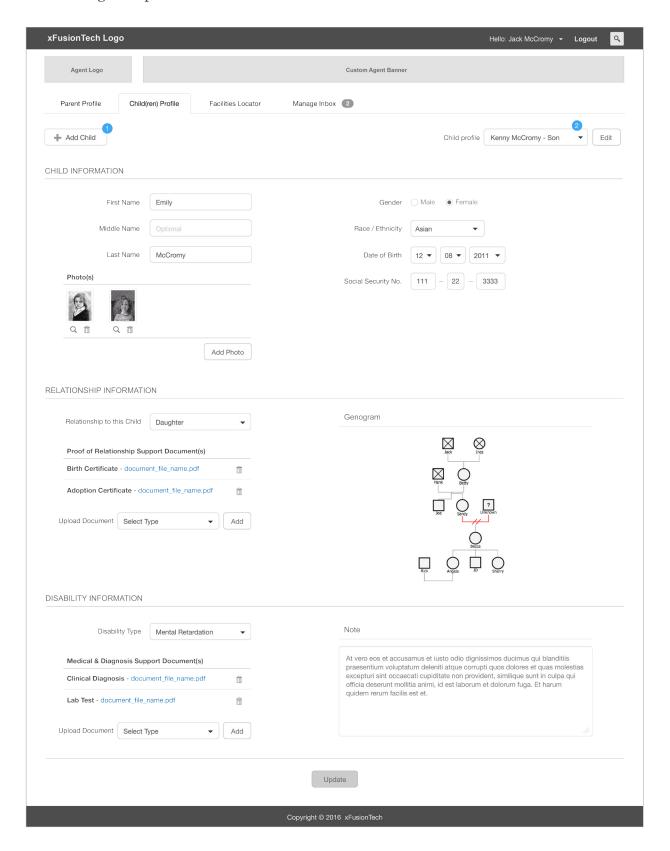

Screen: Parent Profile

Top success banner shows the confirmation of completion message. All tabs are now available.

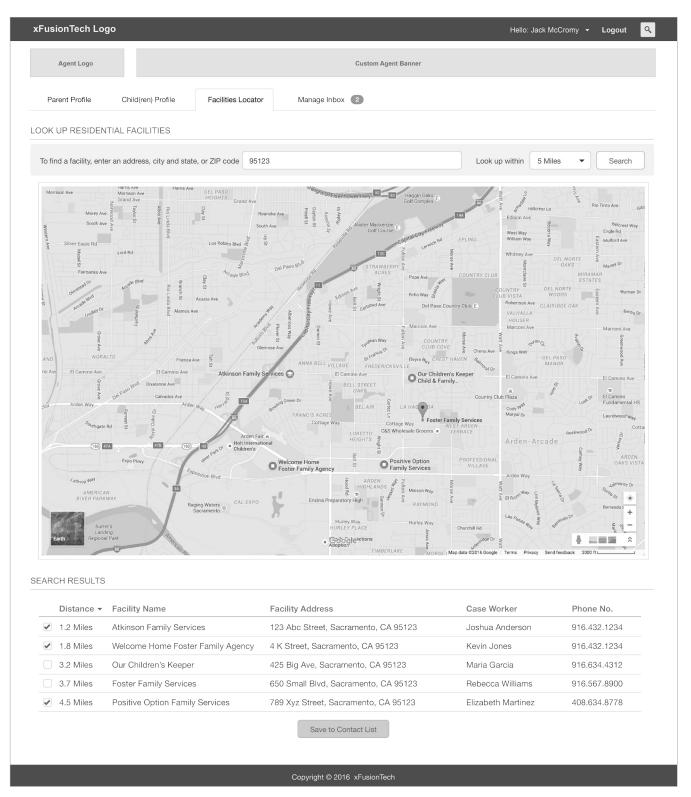

Screen: Child(ren) Profile

- 1. Click on "Add Child" to create child's profile.
- 2. Select existing child profile to edit.

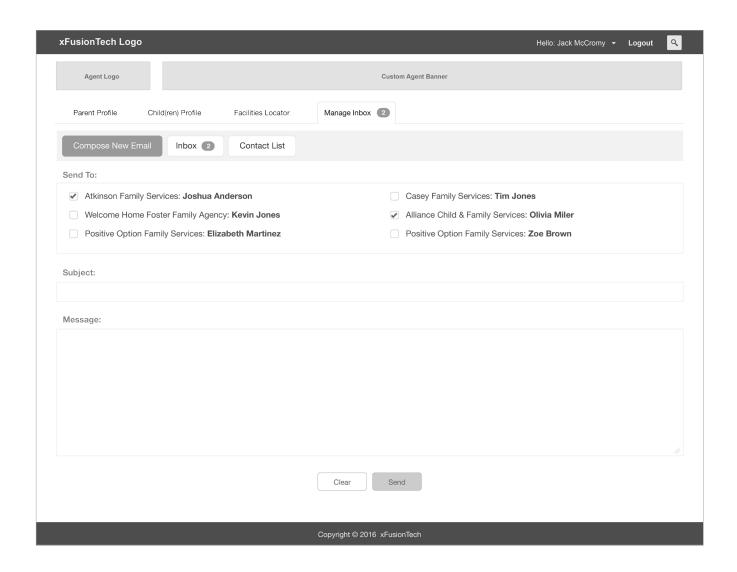

Screen: Facilities Locator

Enter street address or zip code to locate foster family agency within certain radius. User can add selected agency contact info into contact list. The contact list will be listed on "Manage Inbox" section. See page 13.

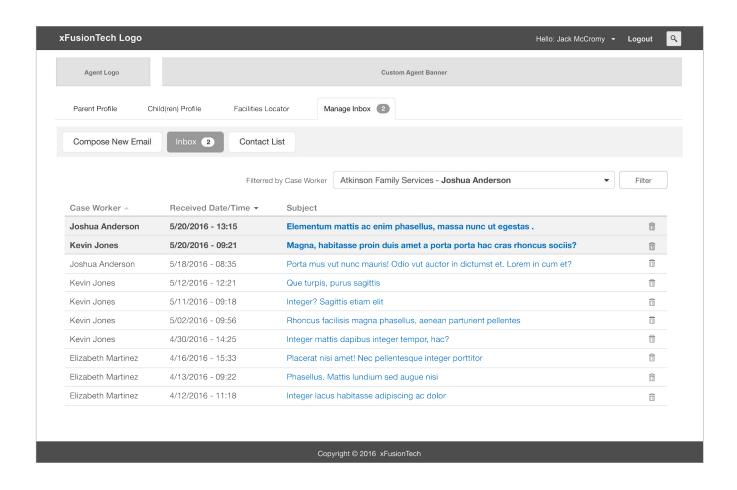

Screen: Inbox > Compose Email

Send To list is pulled from Contact List. User can send email to multiple caseworks at same time.

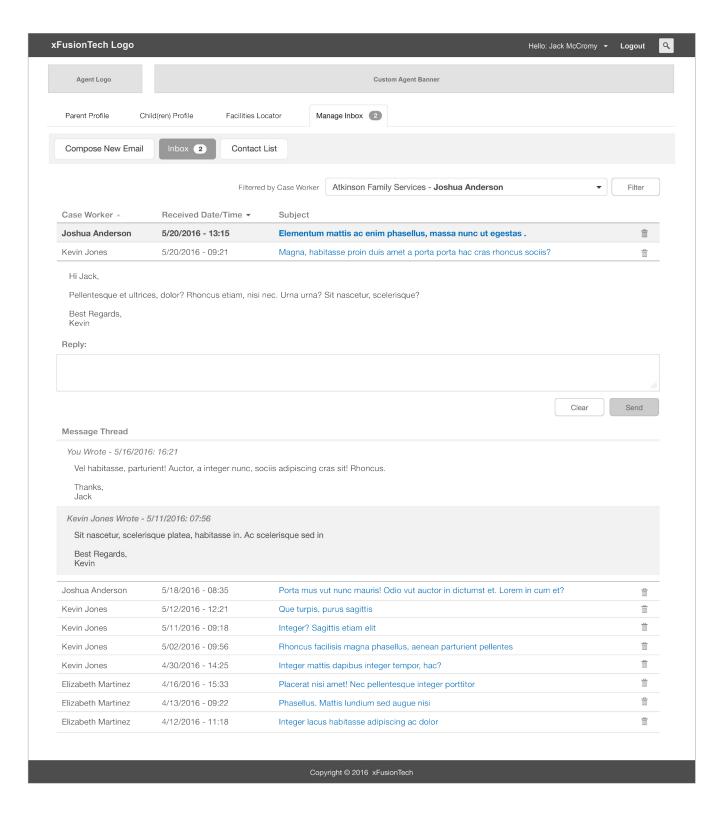

Screen: Inbox > Message List

Message list will be sorted by date in default. User can also view the message filtered by specific Casework.

Screen: Inbox > Message Expending View

Click on message subject will expend the view with message body, reply box as well as the message thread.

Screen: Inbox > Contact List

When save casework from "Facilities Locator" section, will be listed in this screen.
