1 Introduction

The testing process at xFusion goes through multiple rounds of automated and manual testing. The automated testing is conducted in various stages of the application development that includes Unit Testing, Regresson Testing and Integration Testing on both Development and Test environemnts. This document provides the test results of the automated testings that were conducted for SafeKids application.

2 Automated Test Results

Summarized below are the automated test results for Unit Testing, Integration Testing and Section 508 Testing.

2.1 Unit Testing

Test Suite
Test cases: 3 total / 2 passed / 1 failed
Commands: 24 total / 23 passed / 1 failed / 0 skipped
